#### INDEPENDENT AUDITOR'S REPORT

To The Honorable Members of the Board of Supervisors County of Lancaster Lancaster, Virginia

We have audited the accompanying financial statements of the governmental activities, the discretely presented component unit, each major fund, and the aggregate remaining fund information of the County of Lancaster, Virginia, as of and for the year ended June 30, 2009, which collectively comprise the County's basic financial statements as listed in the table of contents. These financial statements are the responsibility of the County of Lancaster, Virginia's management. Our responsibility is to express opinions on these financial statements based on our audit.

We conducted our audit in accordance with auditing standards generally accepted in the United States of America; the standards applicable to financial audits contained in Government Auditing Standards, issued by the Comptroller General of the United States; and the Specifications for Audits of Counties, Cities, and Towns, issued by the Auditor of Public Accounts of the Commonwealth of Virginia. Those standards require that we plan and perform the audit to obtain reasonable assurance about whether the financial statements are free of material misstatement. An audit includes examining, on a test basis, evidence supporting the amounts and disclosures in the financial statements. An audit also includes assessing the accounting principles used and the significant estimates made by management, as well as evaluating the overall financial statement presentation. We believe that our audit provides a reasonable basis for our opinions.

In our opinion, the financial statements referred to above present fairly, in all material respects, the respective financial position of the governmental activities, the discretely presented component unit, each major fund, and the aggregate remaining fund information of the County of Lancaster, Virginia, as of June 30, 2009, and the respective changes in financial position, thereof for the year then ended in conformity with accounting principles generally accepted in the United States of America.

In accordance with Government Auditing Standards, we have also issued our report dated January 8, 2010, on our consideration of the County of Lancaster, Virginia's internal control over financial reporting and on our tests of its compliance with certain provisions of laws, regulations, contracts, and grant agreements and other matters. The purpose of that report is to describe the scope of our testing of internal control over financial reporting and compliance and the results of that testing, and not to provide an opinion on the internal control over financial reporting or on compliance. That report is an integral part of an audit performed in accordance with Government Auditing Standards and important for assessing the results of our audit.

The Management's Discussion and Analysis, budgetary comparison information, and the Schedule of Pension Funding Progress as listed in the table of contents, are not a required part of the basic financial statements but are supplementary information required by accounting principles generally accepted in the United States of America. We have applied certain limited procedures, which consisted principally of inquiries of management regarding the methods of measurement and presentation of the required supplementary information. However, we did not audit the information and express no opinion on it.

Our audit was conducted for the purpose of forming opinions on the financial statements that collectively comprise the County of Lancaster, Virginia's basic financial statements. The introductory section, combining and individual fund financial statements, budgetary comparison schedules, and other statistical information as listed in the table of contents as Other Supplementary Information are presented for purposes of additional analysis and are not a required part of the basic financial statements. The accompanying Schedule of Expenditures of Federal Awards is presented for purposes of additional analysis as required by U.S. Office of Management and Budget Circular A-133, *Audits of States, Local Governments, and Non-Profit Organizations*, and is also not a required part of the basic financial statements of the County of Lancaster, Virginia. The combining and individual fund financial statements and the Schedule of Expenditures of Federal Awards have been subjected to the auditing procedures applied in the audit of the basic financial statements and, in our opinion, are fairly stated in all material respects in relation to the basic financial statements taken as a whole. The introductory section, budgetary comparison schedules, and other statistical information have not been subjected to the auditing procedures applied in the audit of the basic financial statements and, accordingly, we express no opinion on them.

Richmond, Virginia

January 8, 2010

### MANAGEMENT'S DISCUSSION AND ANALYSIS

To the Honorable Members of the Lancaster County Board of Supervisors To the Citizens of Lancaster County County of Lancaster, Virginia

The administrative management staff of the County of Lancaster, Virginia offers the readers of the County's financial statements this narrative overview and analysis of the financial activities of the County for the fiscal year ended June 30, 2009. Please read it in conjunction with the County's basic financial statements, which follow this section.

### **Financial Highlights**

### Government-wide Financial Statements

• The assets of the County exceeded its liabilities at the close of the most recent fiscal year by \$5,123,699 (net assets).

### **Fund Financial Statements**

The Governmental Funds, on a current financial resource basis, reported revenues and other financing sources in excess of expenditures and other financing sources/uses by \$1,063,615 (Exhibit 5) after making contributions totaling \$9,842,444 to the School Board.

- As of the close of the current fiscal year; the County's funds reported ending fund balances of \$11,415,538, an increase of \$1,063,615 in comparison with the prior year.
- At the end of the current fiscal year, unreserved fund balance for the general fund was \$3,474,133 or 15,5% of total general fund expenditures and other uses.
- The combined long-term obligations decreased \$732,871 during the current fiscal year.

### **Priority of Funding**

The County of Lancaster provides government services in eight major operational categories that have been established as standards by the Virginia Auditor of Public Accounts. The categories and percentage of total expenditures for 2009 in these eight categories are as follows:

General Government Administration – 6.2% Judicial Administration – 3.0% Public Safety – 17.8% Public Works – 5.8% Health and Welfare – 11.0% Education – 48.9% Parks, Recreation and Cultural – 0.8% Community Development – 6.5%

### Financial Highlights (Continued)

These percentages compare favorably with other counties of similar size and demographics in that Lancaster County spends less as a percentage of the total than any of these counties in five of the eight categories. Lancaster County spends more on Education than any of the other counties and is above the average spending in Public Safety and Health and Welfare.

### **Overview of the Financial Statements**

This discussion and analysis are intended to serve as an introduction to the County's basic financial statements. The County's basic financial statements comprise three components:

- 1. Government-wide financial statements,
- 2. Fund financial statements, and
- 3. Notes to the financial statements.

This report also contains other supplementary information in addition to the basic financial statements themselves.

<u>Government-wide financial statements</u> - The Government-wide financial statements are designed to provide readers with a broad overview of the County's finances, in a manner similar to a private-sector business.

The statement of net assets presents information on all of the County's assets and liabilities, with the difference between the two reported as net assets. Over time, increases or decreases in net assets may serve as a useful indicator of whether the financial position of the County is improving or deteriorating.

The statement of activities presents information showing how the County's net assets changed during the most recent fiscal year. All changes in net assets are reported as soon as the underlying event giving rise to the change occurs, regardless of the timing of related cash flows. Thus, revenues and expenses are reported in the statement for some items that will only result in cash flows in future fiscal periods (e.g., uncollected taxes and earned but unused vacation leave).

Both of the government-wide financial statements distinguish functions of the County that are principally supported by taxes and intergovernmental revenues (governmental activities) from other functions that are intended to recover all or a significant portion of their costs through user fees and charges (business-type activities). The governmental activities of the County include general government, courts, police protection, sanitation, social services, education, cultural events, and recreation.

The Government-wide financial statements include not only the County of Lancaster, Virginia itself (known as the primary government), but also a legally separate school district for which the County of Lancaster, Virginia is financially accountable. Financial information for the component unit is reported separately from the financial information presented for the primary government itself.

<u>Fund financial statements</u> - A fund is a grouping of related accounts that is used to maintain control over resources that have been segregated for specific activities or objectives. The County of Lancaster, Virginia, like other local governments, uses fund accounting to ensure and demonstrate compliance with finance-related legal requirements. All of the funds of the County can be divided into two categories: governmental funds and fiduciary funds.

### Overview of the Financial Statements (Continued)

Governmental funds - Governmental funds are used to account for essentially the same functions or services reported as governmental activities in the government-wide financial statements. Whereas the government-wide financial statements are prepared on the accrual basis of accounting, the governmental fund financial statements are prepared on the modified accrual basis of accounting. The focus of modified accrual reporting is on near-term inflows and outflows of financial resources and the balance of financial resources available at the end of the fiscal year. Since the governmental funds focus is narrower than that of the government-wide financial statements, a reconciliation between the two methods is provided at the bottom of the governmental fund balance sheet and the governmental fund statement of revenues, expenditures and changes in fund balances. The County has three major governmental funds – the General Fund, County Special Revenue Fund and the County Capital Projects Fund.

<u>Fiduciary funds</u> - The County is the trustee, or fiduciary, for the County's agency funds. It is responsible for ensuring that the assets reported in these funds are used for their intended purposes. All of the County's fiduciary activities are reported in a separate statement of fiduciary net assets. The County excludes these activities from the County's government-wide financial statements because the County cannot use these assets to finance its operations. Agency funds are County custodial funds used to provide accountability of client monies for which the County is custodian.

<u>Notes to the financial statements</u> - The notes provide additional information that is essential to a full understanding of the data provided in the government-wide and fund financial statements.

Other information - In addition to the basic financial statement and accompanying notes, this report also presents certain required supplementary information for budgetary comparison schedules and presentation of combining financial statements for the discretely presented component unit - School Board. The School Board does not issue separate financial statements.

### **Government-wide Financial Analysis**

As noted earlier, net assets may serve over time as a useful indicator of a County's financial position. In the case of the County, assets exceeded liabilities by \$5,123,699 at the close of the most recent fiscal year. The following table summarizes the County's Statement of Net Assets:

### County of Lancaster, Virginia's Net Assets

	Governmental Activities								
	•••	2009	_	2008

### Financial Analysis of the County's Funds

As noted earlier, the County used fund accounting to ensure and demonstrate compliance with finance-related legal requirements.

Governmental Funds - The focus of the County's governmental funds is to provide information on near-term inflows, outflows, and balances of available resources. Such information is useful in assessing the County's financing requirements. In particular, unreserved fund balance may serve as a useful measure of a County's net resources available for spending at the end of the fiscal year.

As of the end of the current fiscal year, the County's governmental funds reported fund balances of \$1,415,538 an increase of \$1,063,615 in comparison with the prior year. Approximately 30% of this total amount constitutes unreserved General Fund balance, which is available for spending at the County's discretion. Draw downs on the unreserved balance serve as an alternative to raising local taxes when, as is presently the case, state funding is being reduced.

The County Capital Projects Fund accounts for all major general public improvements. At the end of the fiscal year, the fund balance was \$7,523,775.

### **General Fund Budgetary Highlights**

The difference between the original budget and the final amended budget was a net increase of \$802,842 further detailed as follows:

- \$ 934,213 increase in community development expenditures
- \$ 270,782 increase in capital projects expenditures
- \$ 13,944 increase in judicial administration expenditures
- \$ 3,036 increase in general government administration expenditures
- \$ 219,000 decrease in education expenditures
- \$ 199,998 decrease in health and welfare expenditures
- \$ 135 net decrease in other various departments

During the year, budgetary revenues and other sources were more than the final estimate by \$1,799,455. Expenditures and other uses were less than the final budgetary estimate by \$441,798. The large expenditure variance was the result of less than estimated reimbursable work in community development.

### Capital Asset and Debt Administration

<u>Capital assets</u> - The County's investment in capital assets for its governmental operations as
of June 30, 2009 amounts to \$3,490,651 (net of accumulated depreciation). This investment
in capital assets includes land, buildings and system, and machinery and equipment.

Additional information on the County's capital assets can be found in the notes of this report.

<u>Long-term debt</u> - At the end of the current fiscal year, the County had total bonded debt outstanding of \$10,187,028. This amount represents bonds secured solely by specified revenue sources (i.e., capital leases and lease/revenue bonds).

The County's total debt decreased \$730,086 during the current fiscal year.

Additional information on the County of Lancaster, Virginia's long-term debt can be found in notes of this report.

### **Economic Factors and Future Years' Budgets and Rates**

- The unemployment rate for the County was 8.7 percent at June 30, 2009. The Commonwealth of Virginia's unemployment rate was 7.3 percent as of the same date.
- Inflationary trends in the region are comparable to state and national indices.
- Taxable sales during the fiscal year showed increases and decreases from one quarter to the next but were, overall, relatively flat.

All of these factors were considered in preparing the County's budget for the 2010 fiscal year.

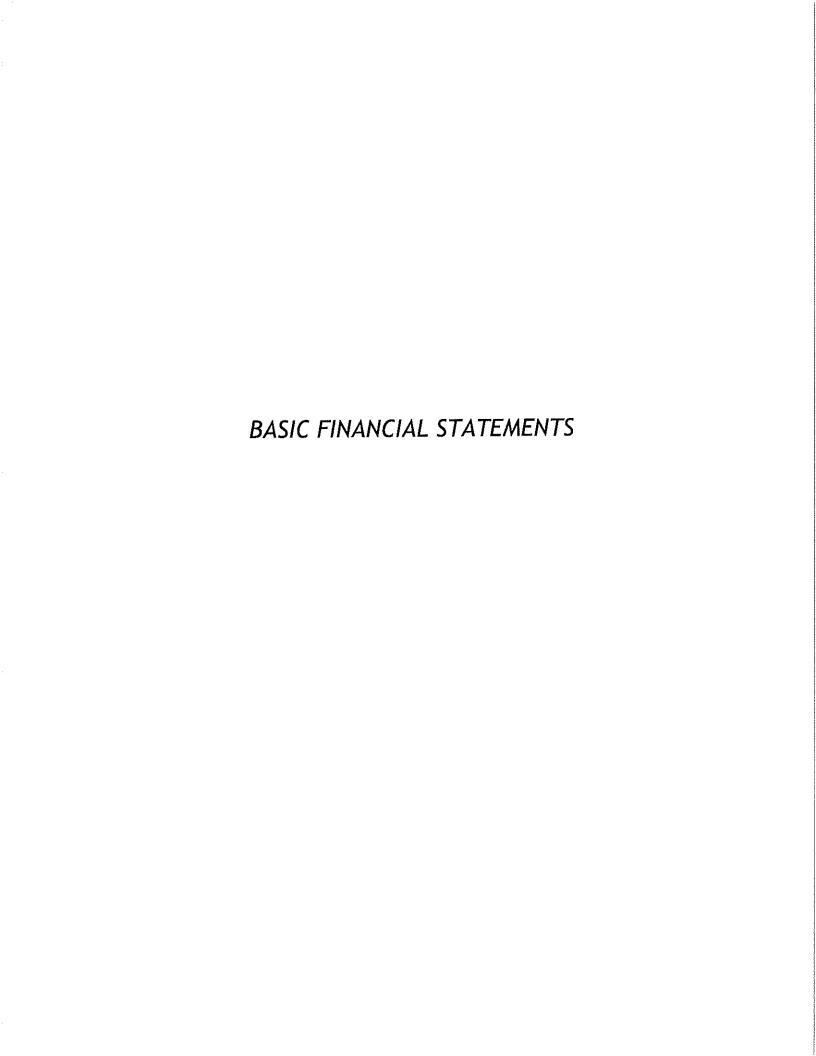

The fiscal year 2010 budget decreased approximately 1.2%.

There are no changes in the tax rates for the 2010 fiscal year.

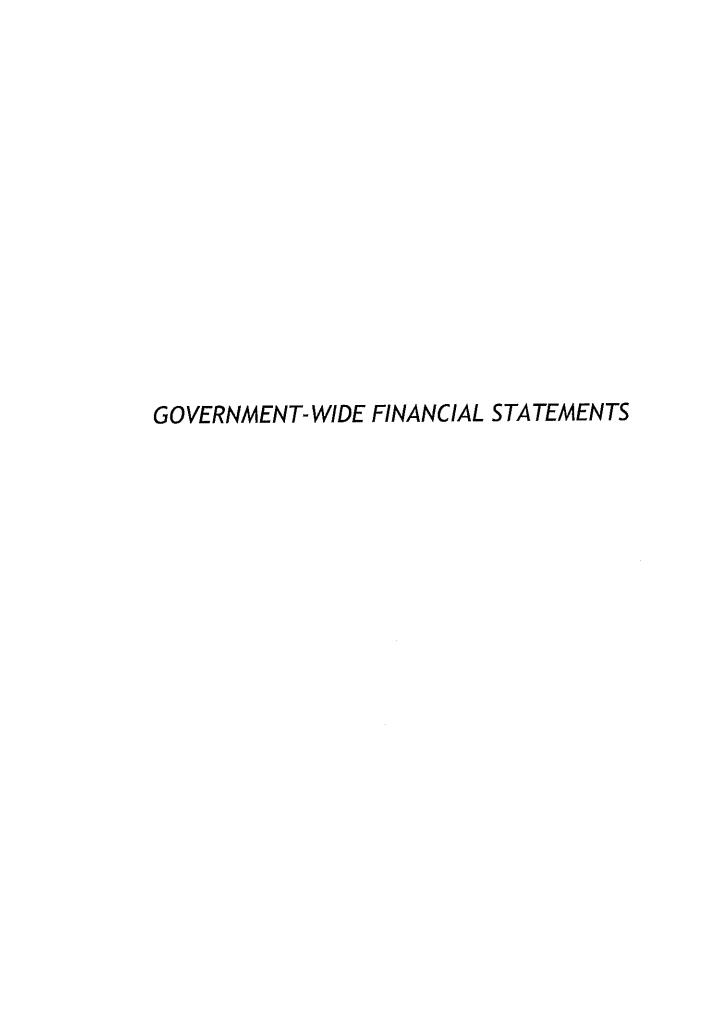

### Requests for Information

This financial report is designed to provide a general overview of the County of Lancaster, Virginia's finances for all those with an interest in the County's finances. Questions concerning any of the information provided in this report or requests for additional financial information should be addressed to the County Administrator, 8311 Mary Ball Road, Lancaster, Virginia 22503.

# County of Lancaster, Virginia Reconciliation of the Balance Sheet of Governmental Funds To the Statement of Net Assets June 30, 2009

Amounts reported for governmental activities in the Statement of Net Assets are differen	t because:	
Total fund balances per Exhibit 3 - Balance Sheet - Governmental Funds		\$ 11,415,538
Capital assets used in governmental activities are not financial resources and, therefore, are not reported in the funds.		3,490,651
Other long-term assets are not available to pay for current-period expenditures and, therefore, are deferred in the funds.		626,413
Long-term liabilities, including bonds payable, are not due and payable in the current period and, therefore, are not reported in the funds. The following is a summary of items supporting this adjustment:		
Revenue bonds \$	. , , ,	
Capital lease	(539,000)	
Accrued interest payable	(142,923)	
Landfill postclosure costs	(39,367)	
Unamortized bond issuance costs	100,000	
Compensated absences	(139,585)	(10,408,903)
Net assets of governmental activities		\$ 5,123,699

# County of Lancaster, Virginia Reconciliation of Statement of Revenues, Expenditures, and Changes in Fund Balances of Governmental Funds To the Statement of Activities For the Year Ended June 30, 2009

Amounts reported for governmental activities in the Statement of Activities are different because	aus	e:	
Net change in fund balances - total governmental funds			\$ 1,063,615
Governmental funds report capital outlays as expenditures. However, in the Statement of Activities the cost of those assets is allocated over their estimated useful lives and reported depreciation expense. This is the amount by which the capital outlays exceeded depreciation the current period. The following is a summary of items supporting this adjustment:			
Capital outlay	\$	1,332,484	
Depreciation expense	4	173,040	
Transfer of joint tenancy assets to Component Unit from Primary Government		(1,325,572)	179,952
Revenues in the Statement of Activities that do not provide current financial resources are			
not reported as revenues in the funds.			234,068
The issuance of long-term debt (e.g. bonds, leases) provides current financial resources to governmental funds, while the repayment of the principal of long-term debt consumes the current financial resources of governmental funds. Neither transaction, however, has any effect on net assets. The following is a summary of items supporting this adjustment:  Principal retirement of county revenue bonds  Principal retirement of general obligation bonds  Principal retirement of capital leases  Principal retirement of school revenue bonds  Decrease of landfill post closure care		187,000 275,000 67,561 200,525 12,721	742,807
Some expenses reported in the Statement of Activities do not require the use of current financial resources and, therefore are not reported as expenditures in governmental funds. The following is a summary of items supporting this adjustment:  (Increase) decrease in accrued leave  Amortization of bond issue costs (Increase) decrease in interest payable	s. \$	(9,936) (10,000) 26,619	6,683
Change in net assets of governmental activities			\$ 2,227,125

### NOTES TO FINANCIAL STATEMENTS AS OF JUNE 30, 2009

### Note 1—Summary of Significant Accounting Policies:

The County of Lancaster, Virginia (the "County") is governed by an elected five member Board of Supervisors. The County provides a full range of services for its citizens. These services include police, refuse disposal, recreational activities, cultural events, education, and social services.

The financial statements of the County of Lancaster, Virginia have been prepared in conformity with the specifications promulgated by the Auditor of Public Accounts (APA) of the Commonwealth of Virginia, and the accounting principles generally accepted in the United States as specified by the Governmental Accounting Standards Board. The more significant of the government's accounting policies are described below.

<u>Management's Discussion and Analysis</u> - GASB Statement No. 34 requires the financial statements be accompanied by a narrative introduction and analytical overview of the government's financial activities in the form of "Management's Discussion and Analysis" (MD&A).

### Government-wide and Fund Financial Statements

<u>Government-wide financial statements</u> - The reporting model includes financial statements prepared using full accrual accounting for all of the government's activities. This approach includes not just current assets and liabilities but also capital assets and long-term liabilities (such as buildings and general obligation debt).

The government-wide financial statements (i.e., the Statement of Net Assets and the Statement of Activities) report information on all of the nonfiduciary activities of the primary government and its component unit. For the most part, the effect of interfund activity has been removed from these statements. Governmental activities, which normally are supported by taxes and intergovernmental revenues, are reported separately from business-type activities, which rely to a significant extent on fees and charges for support. Likewise, the primary government is reported separately from certain legally separate component units for which the primary government is financially accountable.

NOTES TO FINANCIAL STATEMENTS (CONTINUED) AS OF JUNE 30, 2009

### Note 1—Summary of Significant Accounting Policies: (Continued)

<u>Statement of Net Assets</u> - The Statement of Net Assets is designed to display financial position of the primary government (government and business-type activities) and its discretely presented component unit. Governments will report all capital assets in the government-wide Statement of Net Assets and will report depreciation expense - the cost of "using up" capital assets - in the Statement of Activities. The net assets of a government will be broken down into three categories - 1) invested in capital assets, net of related debt; 2) restricted; and 3) unrestricted.

<u>Statement of Activities</u> - The government-wide Statement of Activities reports expenses and revenues in a format that focuses on the cost of each of the government's functions. The expense of individual functions is compared to the revenues generated directly by the function (for instance, through user charges or intergovernmental grants).

The Statement of Activities demonstrates the degree to which the direct expenses of a given function or segment is offset by program revenues. Direct expenses are those that are clearly identifiable with a specific function or segment. Program revenues include 1) charges to customers or applicants who purchase, use, or directly benefit from goods, services, or privileges provided by a given function or segment and 2) grants and contributions that are restricted to meeting the operational or capital requirements of a particular function or segment. Taxes and other items not properly included among program revenues are reported instead as general revenues.

Separate financial statements are provided for governmental funds, proprietary funds, and fiduciary funds, even though the latter are excluded from the government-wide financial statements. Major individual governmental funds and major individual enterprise funds are reported as separate columns in the fund financial statements.

<u>Budgetary Comparison Schedules</u> - Demonstrating compliance with the adopted budget is an important component of a government's accountability to the public. Many citizens participate in one way or another in the process of establishing the annual operating budgets of state and local governments, and have a keen interest in following the actual financial progress of their governments over the course of the year. Many governments revise their original budgets over the course of the year for a variety of reasons. Under the reporting model, governments provide budgetary comparison information in their annual reports including the government's original budget and a comparison of final budget and actual results.

### A. Financial Reporting Entity

The basic criterion for determining whether a governmental department, agency, institution, commission, public authority, or other governmental organization should be included in a primary governmental unit's reporting entity for the basic financial statements is financial accountability. Financial accountability includes the appointment of a voting majority of the organization's governing body and the ability of the primary government to impose its will on the organization or if there is a financial benefit/burden relationship. In addition, an organization which is fiscally dependent on the

NOTES TO FINANCIAL STATEMENTS (CONTINUED) AS OF JUNE 30, 2009

### Note 1—Summary of Significant Accounting Policies: (Continued)

### A. Financial Reporting Entity (Continued)

primary government should be included in its reporting entity. These financial statements present the County of Lancaster (the primary government) and its component unit. Blended component units, although legally separate entities, are, in substance, part of the government's operations and so data from these units are combined with data of the primary government. Each discretely presented component unit, on the other hand, is reported in a separate column in the combined financial statements to emphasize it is legally separate from the government.

### B. Individual Component Unit Disclosures

Blended Component Unit. The County has no blended component units at June 30, 2009.

Discretely Presented Component Unit. The School Board members are elected by the citizens of Lancaster County. The School Board is responsible for the operations of the County's School System within the County boundaries. The School Board is fiscally dependent on the County. The County has the ability to approve its budget and any amendments. The primary funding is from the General Fund of the County. The School Fund does not issue a separate financial report. The financial statements of the School Board are presented as a discrete presentation of the County financial statements for the fiscal year ended June 30, 2009.

### C. Other Related Organizations Included in the County's Financial Report

None

### D. Measurement Focus, Basis of Accounting and Financial Statement Presentation

The accompanying financial statements are prepared in accordance with pronouncements issued by the Governmental Accounting Standards Board. The principles prescribed by GASB represent generally accepted accounting principles applicable to governmental units.

The County applies all GASB pronouncements as well as the Financial Accounting Standards Board pronouncements issued on or before November 30, 1989 unless these pronouncements conflict with or contradict GASB pronouncements.

The government-wide financial statements are reported using the economic resources measurement focus and the accrual basis of accounting, as are the fiduciary fund financial statements. Revenues are recorded when earned and expenses are recorded when a liability is incurred, regardless of timing of related cash flows. Property taxes are recognized as revenues in the year for which they are levied. Grants and similar items are recognized as revenue as soon as all eligibility requirements imposed by the provider have been met.

NOTES TO FINANCIAL STATEMENTS (CONTINUED) AS OF JUNE 30, 2009

Note 1—Summary of Significant Accounting Policies: (Continued)

### D. Measurement Focus, Basis of Accounting and Financial Statement Presentation (Continued)

The government-wide Statement of Activities reflects both the gross and net cost per functional category (public safety, public works, health and welfare, etc.) which are otherwise being supported by general government revenues, (property, sales and use taxes, certain intergovernmental revenues, fines, permits and charges, etc.) The Statement of Activities reduces gross expenses (including depreciation) by related program revenues, operating and capital grants, and contributions. The program revenues must be directly associated with the function (public safety, public works, health and welfare, etc.) or a business-type activity.

Governmental fund financial statements are reported using the current financial resources measurement focus and the modified accrual basis of accounting. This is the manner in which these funds are normally budgeted. Revenues are recognized as soon as they are both measurable and available. Revenues are considered to be available when they are collectible within the current period or soon enough thereafter to pay liabilities of the current period. For this purpose, the government considers revenues to be available if they are collected within 60 days of the end of the current fiscal period. All other revenue items are considered to be measurable and available only when cash is received by the government. Expenditures generally are recorded when a liability is incurred, as under accrual accounting. However, debt service expenditures as well as expenditures related to compensated absences and claims and judgments, are recorded only when payment is due.

The County's fiduciary funds are presented in the fund financial statements by type. Since by definition these assets are being held for the benefit of a third party and cannot be used to address activities or obligations of the government, these funds are not incorporated into the government-wide statements.

Property taxes, franchise taxes, licenses, and interest associated with the current fiscal period are all considered to be susceptible to accrual and so have been recognized as revenues of the current fiscal period. Accordingly, real and personal property taxes are recorded as revenues and receivables when billed, net of allowances for uncollectible amounts. Property taxes not collected within 60 days after year-end are reflected as deferred revenues. Sales and utility taxes, which are collected by the state or utilities and subsequently remitted to the County, are recognized as revenues and receivables upon collection by the state or utility, which is generally within two months preceding receipt by the County.

Licenses, permits, fines and rents are recorded as revenues when received. Intergovernmental revenues, consisting primarily of federal, state and other grants for the purpose of funding specific expenditures, are recognized when earned or at the time of the specific expenditure. Revenues from general purpose grants are recognized in the period to which the grant applies. All other revenue items are considered to be measurable and available only when cash is received by the government.

NOTES TO FINANCIAL STATEMENTS (CONTINUED) AS OF JUNE 30, 2009

Note 1—Summary of Significant Accounting Policies: (Continued)

### D. Measurement Focus, Basis of Accounting and Financial Statement Presentation (Continued)

In the fund financial statements, financial transactions and accounts of the County are organized on the basis of funds. The operation of each fund is considered to be an independent fiscal and separate accounting entity, with a self-balancing set of accounts recording cash and/or other financial resources together with all related liabilities and residual equities or balances, and changes therein, which are segregated for the purpose of carrying on specific activities or attaining certain objectives in accordance with special regulations, restrictions, or limitations.

### 1. Governmental Funds

Governmental Funds are those through which most governmental functions typically are financed. The County reports the General Fund as a major governmental fund.

The General Fund is the primary operating fund of the County. This fund is used to account for all financial transactions and resources except those required to be accounted for in another fund. Revenues are derived primarily from property and other local taxes, state and federal distributions, licenses, permits, charges for service, and interest income. A significant part of the General Fund's revenues is used principally to finance the operations of the Component Unit School Board. The General Fund is considered a major fund for government-wide reporting purposes.

<u>Capital Projects Funds</u> - Capital Projects Funds account for financial resources to be used for the acquisition or construction of major capital facilities.

<u>Special Revenue Funds</u> - Special Revenue Funds account for the proceeds of specific revenue sources (other than major capital projects) requiring separate accounting because of legal or regulatory provisions or administrative action.

The County reports the following nonmajor governmental funds:

<u>Fiduciary Funds - (Trust and Agency Funds)</u> - account for assets held by the County unit in a trustee capacity or as an agent or custodian for individuals, private organizations, other governmental units, or other funds. These funds include Agency Funds. These funds utilize the accrual basis of accounting described in the Governmental Fund Presentation. Fiduciary funds are not included in the government-wide financial statements.

### E. Cash and Cash Equivalents

Cash and cash equivalents include amounts in demand deposits as well as short-term investments with a maturity date within three months of the date acquired by the government.

NOTES TO FINANCIAL STATEMENTS (CONTINUED) AS OF JUNE 30, 2009

### Note 1—Summary of Significant Accounting Policies: (Continued)

### E. Cash and Cash Equivalents (Continued)

State statutes authorize the government to invest in obligations of the U.S. Treasury, commercial paper, corporate bonds and repurchase agreements.

Investments for the government, as well as for its component unit, are reported at fair value.

### F. Investments

Investments are stated at fair value which approximates market; no investments are valued at cost. Certificates of deposit and short-term repurchase agreements are reported in the accompanying financial statements as cash and cash equivalents.

### G. Receivables and Payables

Activity between funds that are representative of lending/borrowing arrangements outstanding at the end of the fiscal year are referred to as either "due to/from other funds" (i.e. the current portions of the interfund loans). All other outstanding balances between funds are reported as "advances to/from other funds."

All trade and property tax receivables are shown net of an allowance for uncollectibles. The County calculates its allowance for uncollectible accounts using historical collection data and, in certain cases, specific account analysis. The allowance amounted to approximately \$225,681 at June 30, 2009 is comprised solely of property taxes.

### Real and Personal Property Tax Data:

The tax calendars for real and personal property taxes are summarized below.

	Real Property	Personal Property	
Levy	January 1	January 1	
Due Date	December 5	December 5	
Lien Date	January 1	January 1	

The County bills and collects its own property taxes.

NOTES TO FINANCIAL STATEMENTS (CONTINUED) AS OF JUNE 30, 2009

### Note 1—Summary of Significant Accounting Policies: (Continued)

### H. Capital Assets

Capital assets, which include property, plant and equipment, are reported in the applicable governmental columns in the government-wide financial statements. Capital assets are defined by the County as land, buildings, and equipment with an initial individual cost of more than \$5,000 (amount not rounded) and an estimated useful life in excess of two years. The County does not have any infrastructure in its capital assets since roads, streets, bridges and similar assets within its boundaries are the property of the Commonwealth of Virginia. Such assets are recorded at historical cost or estimated historical cost if purchased or constructed. Donated capital assets are recorded as estimated fair market value at the date of donation.

The costs of normal maintenance and repairs that do not add to the value of the asset or materially extend assets lives are not capitalized.

Major outlays for capital assets and improvements are capitalized as projects are constructed.

Property, plant and equipment of the primary government, as well as the component unit, are depreciated using the straight-line method over the following estimated useful lives.

Assets	Years
Building Improvements	40
Furniture, Vehicles, Office and Computer Equipment	5-20
Buses	10

#### I. Compensated Absences

Vested or accumulated vacation leave that is expected to be liquidated with expendable available financial resources is reported as an expenditure and a fund liability of the governmental fund that will pay it. Amounts of vested or accumulated vacation leave that are not expected to be liquidated with expendable available financial resources are reported as an expense in the Statement of Activities and a long-term obligation in the Statement of Net Assets. In accordance with the provisions of Governmental Accounting Standards No. 16, Accounting for Compensated Absences, no liability is recorded for nonvesting accumulating rights to received sick pay benefits. However, a liability is recognized for that portion of accumulating sick leave benefits that is estimated will be taken as "terminal leave" prior to retirement.

### J. Retirement Plan

Retirement plan contributions are actuarially determined and consist of current service costs and amortization of prior service cost over a 30-year period. The County's policy is to fund pension cost as it accrues.

NOTES TO FINANCIAL STATEMENTS (CONTINUED) AS OF JUNE 30, 2009

#### Note 1—Summary of Significant Accounting Policies: (Continued)

#### K. Use of Estimates

The preparation of financial statements in conformity with generally accepted accounting principles requires management to make estimates and assumptions that affect certain reported amounts and disclosures. Accordingly, actual results could differ from those estimates.

#### L. Fund Equity

In the fund financial statements, governmental funds report reservations of fund balance for amounts that are not available for appropriation or are legally restricted by outside parties for use for a specific purpose. Designations of fund balance represent tentative management plans that are subject to change.

#### M. Net Assets

Net assets are the difference between assets and liabilities. Net assets invested in capital assets represent capital assets, less accumulated depreciation less any outstanding debt related to the acquisition, construction or improvement of those assets.

#### N. Long-term Obligations

In the government-wide financial statements, long-term debt and other long-term obligations are reported as liabilities in the applicable governmental activities, business-type activities, or proprietary fund type Statement of Net Assets. Bonds payable are reported net of the applicable bond premium or discount.

In the fund financial statements, governmental fund types recognize bond premiums and discounts, as well as bond issuance costs, during the current period. The face amount of debt issued and premiums on debt issuances are reported as other financing sources while discounts on debt issuances are reported as other financing uses. Issuance costs, whether or not withheld from the actual debt proceeds received, are reported as debt service expenditures.

# Note 2—Stewardship, Compliance, and Accounting:

The following procedures are used by the County in establishing the budgetary data reflected in the financial statements:

1. On or before March 30<sup>th</sup>, the County Administrator submits to the Board of Supervisors a proposed operating and capital budget for the fiscal year commencing the following July 1. The operating and capital budget includes proposed expenditures and the means of financing them.

NOTES TO FINANCIAL STATEMENTS (CONTINUED) AS OF JUNE 30, 2009

#### Note 2—Stewardship, Compliance, and Accounting: (Continued)

- 2. Public hearings are conducted to obtain citizen comments.
- 3. Prior to June 30, the budget is legally enacted through passage of an Appropriations Resolution.
- 4. The Appropriations Resolution places legal restrictions on expenditures at the department or category level. The appropriation for each department or category can be revised only by the Board of Supervisors. The County Administrator is authorized to transfer budgeted amounts within general government departments.
- 5. All budgets are adopted on a basis consistent with generally accepted accounting principles (GAAP).
- 6. Appropriations lapse on June 30, for all County units.

#### Note 3—Cash and Cash Equivalents:

#### **Deposits**

All cash of the primary government and its discretely presented component unit is maintained in accounts collateralized in accordance with the Virginia Security for Public Deposits Act (a multiple financial institution collateral pool), Section 2.2-4400 et. seq. of the <u>Code of Virginia</u> or covered by federal depository insurance.

#### Investments

Statutes authorize the County to invest in obligations of the United States or agencies thereof, obligations of the Commonwealth of Virginia or political subdivisions thereof, obligations of the International Bank for Reconstruction and Development (World Bank), the Asian Development Bank, the African Development Bank, "prime quality" commercial paper and certain corporate notes, banker's acceptances, repurchase agreements and the State Treasurer's Local Government Investment Pool (LGIP).

NOTES TO FINANCIAL STATEMENTS (CONTINUED) AS OF JUNE 30, 2009

#### Note 3—Cash and Cash Equivalents: (Continued)

#### Credit Risk of Debt Securities

The County's rated debt investments as of June 30, 2009 were rated by <u>Standard & Poor's</u> and the ratings are presented below using <u>Standard & Poor's</u> rating scale.

Locality's Rated Debt Invest	ments' Va	llues					
Rated Debt Investments	Fair Quality Rating						
	AAAm						
Local Government Investment Pool State Non-Arbitrage Pool	\$	31,652 6,261,443					
Total	\$	6,293,095					

#### External Investment Pools

The State Non-Arbitrage Pool (SNAP) is open-ended management investment company registered with the Securities and Exchange Commission (SEC). The fair value of the positions in the external investment pools (Local Government Investment Pool and State Non-Arbitrage Pool) is the same as the value of the pool shares. As the LGIP is not SEC registered, regulatory oversight of the pool rests with the Virginia State Treasury. LGIP maintains a policy to operate in a manner consistent with SEC Rule 2a-7.

#### Note 8-Capital Lease:

The government has entered into a lease agreement as lessee for financing the acquisition of energy efficiency upgrades for the component unit-school board's schools with a down payment of \$1. This lease agreement qualifies as a capital lease for accounting purposes and, therefore, has been recorded at the present value of the future minimum lease payments as of the inception date.

The asset acquired through capital lease is as follows:

		Primary	
	G	overnment	
	(Incurred by		
	Sc	hool Board)	
Asset:			
Buildings and improvements	\$	1,079,090	
Less: accumulated depreciation		(593,522)

Present value of minimum lease payments	\$	539,000

NOTES TO FINANCIAL STATEMENTS (CONTINUED) AS OF JUNE 30, 2009

#### Note 9-Deferred Revenue:

Deferred revenue represents amounts for which asset recognition criteria have been met, but for which revenue recognition criteria have not been met. Under the modified accrual basis of accounting, such amounts are measurable, but not available. Deferred revenue totaling \$646,315 is comprised of the following:

<u>Deferred Property Tax Revenue</u> - Deferred revenue representing uncollected tax billings not available for funding of current expenditures totaled \$626,413 at June 30, 2009.

<u>Prepaid Property Taxes</u> - Property taxes due subsequent to June 30, 2009 but paid in advance by the taxpayers totaled \$19,902 at June 30, 2009.

#### Note 10-Contingent Liabilities:

Federal programs in which the County and all discretely presented component units participate were audited in accordance with the provisions of the U.S. Office of Management and Budget Circular A-133, <u>Audits of States, Local Governments, and Non-Profit Organizations</u>. Pursuant to the provisions of this circular all major programs and certain other programs were tested for compliance with applicable grant requirements.

While no matters of noncompliance were disclosed by audit, the Federal Government may subject grant programs to additional compliance tests which may result in disallowed expenditures. In the opinion of management, any future disallowance of current grant program expenditures, if any, would be immaterial.

#### Note 11-Litigation:

At June 30, 2009, there were no matters of litigation involving the County or which would materially affect the County's financial position should any court decisions on pending matters not be favorable to the County.

#### Note 12 —Risk Management:

The County is exposed to various risks of loss related to torts; theft of, damage to and destruction of assets; errors and omissions; and natural disasters for which the government carries insurance.

The County is a member of the VACO Self Insurance Association for workers' compensation. This program is administered by a servicing contractor, which furnishes claims review and processing.

Each Association member jointly and severally agrees to assume, pay and discharge any liability. The County pays VACO contributions and assessments based upon classifications and rates into a designated cash reserve fund out of which expenses of the Association and claims and awards are to be paid. In the

Notes to Financial Statements (Continued) As of June 30, 2009

#### Note 12-Risk Management: (Continued)

event of a loss deficit and depletion of all available excess insurance, the Association may assess all members in the proportion which the premium of each bears to the total premiums of all members in the year in which such deficit occurs.

The County continues to carry commercial insurance for all other risks of losses. During the last three fiscal years, settled claims from these risks have not exceeded commercial coverage.

#### Note 13-Defined Benefit Pension Plan:

#### A. Plan Description

Name of Plan:

Virginia Retirement System (VRS)

Identification of Plan:

Agent and Cost-Sharing Multiple-Employer Defined Benefit Pension Plan

Administering Entity:

Virginia Retirement System (System)

All full-time, salaried permanent employees of participating employers must participate in the VRS. Benefits vest after five years of service. Employees are eligible for an unreduced retirement benefit at age 65 with 5 years of service (age 60 for participating local law enforcement officers, firefighters, and sheriffs) or at age 50 with at least 30 years of service if elected by the employer (age 50 with at least 25 years of service for participating local law enforcement officers, firefighters, and sheriffs) payable monthly for life in an amount equal to 1.70% of their average final compensation (AFC) for each year of credited service (1.85% for sheriffs and if the employer elects, for other employees in hazardous duty positions receiving enhanced benefits). Benefits are actuarially reduced for retirees who retire prior to becoming eligible for full retirement benefits. In addition, retirees qualify for annual cost-of-living adjustment (COLA) beginning in their second year of retirement. The COLA is limited to 5.00% per year. AFC is defined as the highest consecutive 36 months of reported compensation. Participating local law enforcement officers, firefighters, and sheriffs may receive a monthly benefit supplement if they retire prior to age 65. The VRS also provides death and disability benefits. Title 51.1 of the Code of Virginia (1950), as amended, assigns the authority to establish and amend benefit provisions to the General Assembly of Virginia.

The System issues a publicly available comprehensive annual financial report that includes financial statements and required supplementary information for VRS. A copy of that report may be downloaded from their website at <a href="http://www.varetire.org/pdf/publications/2008AnnuRept.pdf">http://www.varetire.org/pdf/publications/2008AnnuRept.pdf</a> or obtained by writing to the System's Chief Financial Officer at P.O. Box 2500, Richmond, Virginia 23218-2500.

NOTES TO FINANCIAL STATEMENTS (CONTINUED) AS OF JUNE 30, 2009

#### Note 13—Defined Benefit Pension Plan: (Continued)

#### **B.** Funding Policy

Plan members are required by Title 51.1 of the <u>Code of Virginia</u> (1950), as amended, to contribute 5.00% of their annual salary to the VRS. This 5.00% member contribution may be assumed by the employer. In addition, the County is required to contribute the remaining amounts necessary to fund its participation in the VRS using the actuarial basis specified by the <u>Code of Virginia</u> and approved by the VRS Board of Trustees. The County's and School Board's non-professional contribution rates for the fiscal year ended 2009 was 9.71% and 12.05% of annual covered payroll, respectively.

The Lancaster County School Board professional employees current rate is 8.81% of annual covered payroll. The contribution requirements of plan members and Lancaster County School Board are established and may be amended by the VRS Board of Trustees. The School Board's contributions to VRS for the years ended June 30, 2009, 2008, and 2007 were \$631,709, \$765,358, and \$673,735, respectively, and equal to the required contributions for each year.

#### C. Annual Pension Cost

For the fiscal year 2009, the County's annual pension cost of \$544,858 (which includes the portion of the employee share assumed by the County which was \$185,200) was equal to the County's required and actual contributions.

For the fiscal year 2009, the County School Board's annual pension cost for the Board's non-professional employees was \$134,303 (which includes the portion of the employees share assumed by the Board which was \$39,377) which was equal to the Board's required and actual contributions.

NOTES TO FINANCIAL STATEMENTS (CONTINUED) AS OF JUNE 30, 2009

#### Note 13-Defined Benefit Pension Plan: (Continued)

#### C. Annual Pension Cost (Continued)

The required contribution was determined as part of the June 30, 2007 actuarial valuation using the entry age actuarial cost method. The actuarial assumptions at June 30, 2007 included (a) an investment rate of return (net of administrative expenses) of 7.50%, (b) projected salary increases ranging from 3.75% to 5.60% per year for general government employees and 3.50% to 4.75% for employees eligible for enhanced benefits available to law enforcement officers, firefighters and sheriffs, and (c) a cost-of-living adjustment of 2.50% per year. Both the investment rate of return and the projected salary increases include an inflation component of 2.50%. The actuarial value of the County's and School Board's assets is equal to the modified market value of assets. This method uses techniques that smooth the effects of short-term volatility in the market value of assets over a five-year period. The County's and School Board's unfunded actuarial accrued liability is being amortized as a level percentage of projected payroll on an open basis. The remaining amortization period at June 30, 2007 was 20 years.

#### D. Funded Status and Funding Progress

As of June 30, 2008, the most recent actuarial valuation date, the plan was 85.87% funded. The actuarial accrued liability for benefits was \$13,666,901, and the actuarial value of assets was \$11,736,177, resulting in an unfunded actuarial accrued liability (UAAL) of \$1,930,724. The covered payroll (annual payroll of active employees covered by the plan) was \$3,513,367, and ratio of the UAAL to covered payroll was 54.95%.

As of June 30, 2008, the most recent actuarial valuation date, the School Board's Non-Professional plan was 72.60% funded. The actuarial accrued liability for benefits was \$2,161,545 and the actuarial value of assets was \$1,569,229, resulting in an unfunded actuarial accrued liability (UAAL) of \$592,316. The covered payroll (annual payroll of active employees covered by the plan) was \$765,826, and ratio of the UAAL to the covered payroll was 77.34%.

The schedule of funding progress, presented as Required Supplementary Information following the notes to the financial statements, presents multiyear trend information about whether the actuarial value of plan assets is increasing or decreasing over time relative to the actuarial accrued liability (AAL) for benefits.

NOTES TO FINANCIAL STATEMENTS (CONTINUED) AS OF JUNE 30, 2009

#### Note 14-Surety Bonds:

	,	Amount
Division of Risk Management Surety Bond:		
Commonwealth Funds

#### Note 15-Jointly Governed Organizations:

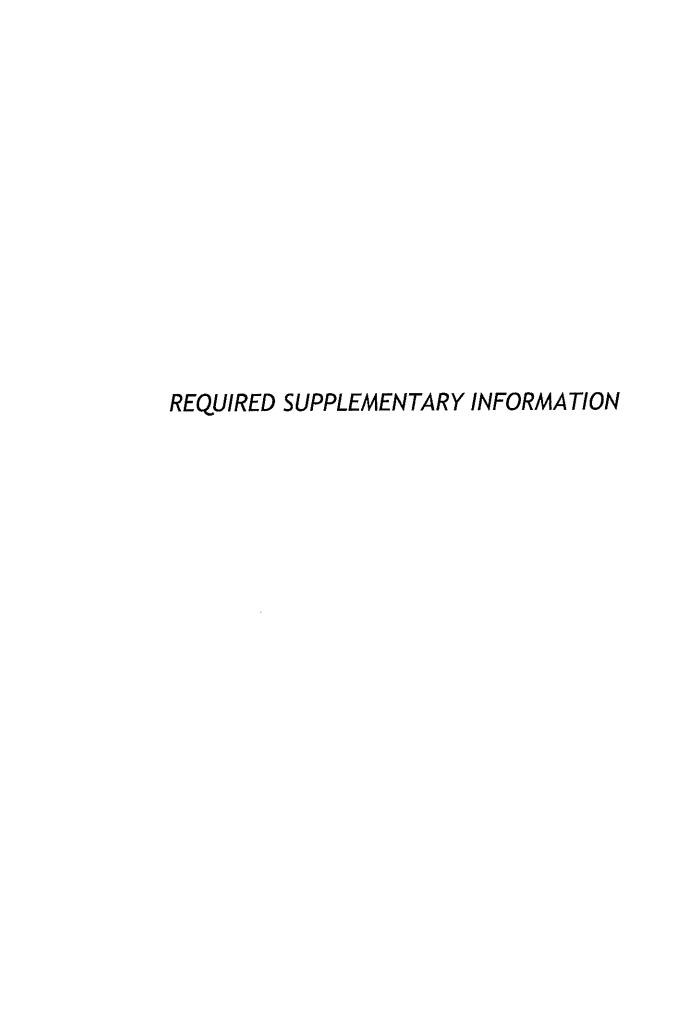

The County in conjunction with other localities has created the Middle Peninsula/Northern Neck Community Services Board. The governing body of this organization is appointed by the respective governing bodies of the participating jurisdictions. During the year the County contributed \$36,744, for operations to the Middle Peninsula/Northern Neck Community Services Board.

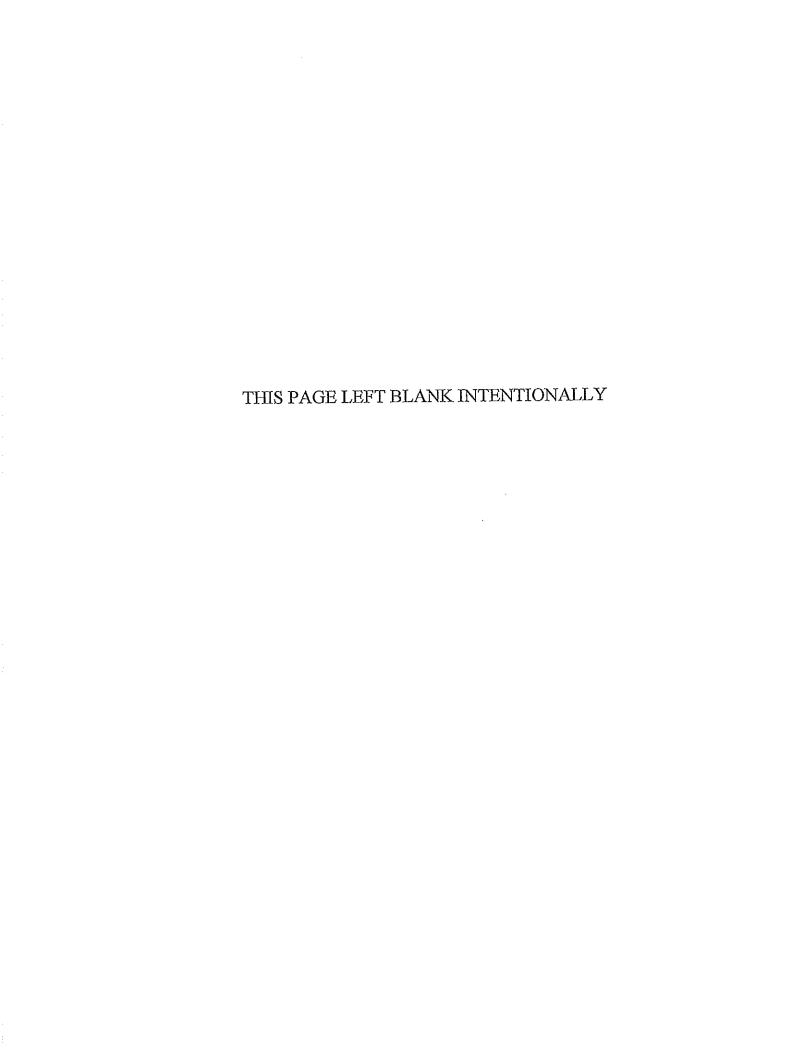

#### Note 16-Landfill Postclosure Costs:

The County which operates a joint landfill with Northumberland and Richmond Counties, closed the landfill and is liable for postclosure monitoring for a period of ten years plus an additional six years of corrective action monitoring. The amount reported as landfill postclosure liability at June 30, 2009, represents one third of the total estimated liability for postclosure monitoring. The County's portion is \$39,367 over a period of 3 years. This amount is based on what it would cost to perform all postclosure care in 2009. The total current cost of landfill postclosure care is an estimate subject to change resulting from inflation, deflation, technology, or changes in applicable laws or regulations.

The County demonstrated financial assurance for closure, postclosure care, and corrective action costs through the submission of a local Governmental Financial Test to the Virginia Department of Environmental Quality in accordance with Section 9VA C20-70 of the Virginia Administrative Code.

Report on Internal Control Over Financial Reporting and on Compliance and Other Matters Based on an Audit of Financial Statements Performed in Accordance with Government Auditing Standards

To The Honorable Members of the Board of Supervisors County of Lancaster Lancaster, Virginia

We have audited the financial statements of the governmental activities, the discretely presented component unit, each major fund, and the aggregate remaining fund information of the County of Lancaster, Virginia, as of and for the year ended June 30, 2009, which collectively comprise the County of Lancaster, Virginia's basic financial statements and have issued our report thereon dated January 8, 2010. We conducted our audit in accordance with auditing standards generally accepted in the United States of America; the Specifications for Audits of Counties, Cities, and Towns, issued by the Auditor of Public Accounts of the Commonwealth of Virginia; and the standards applicable to financial audits contained in Government Auditing Standards, issued by the Comptroller General of the United States.

### Internal Control Over Financial Reporting

In planning and performing our audit, we considered the County of Lancaster, Virginia's internal control over financial reporting as a basis for designing our auditing procedures for the purpose of expressing our opinions on the financial statements, but not for the purpose of expressing an opinion on the effectiveness of the County of Lancaster, Virginia's internal control over financial reporting. Accordingly, we do not express an opinion on the effectiveness of the County of Lancaster, Virginia's internal control over financial reporting.

A control deficiency exists when the design or operation of a control does not allow management or employees, in the normal course of performing their assigned functions, to prevent or detect misstatements on a timely basis. A significant deficiency is a control deficiency, or combination of control deficiencies, that adversely affects the County of Lancaster, Virginia's ability to initiate, authorize, record, process, or report financial data reliably in accordance with generally accepted accounting principles such that there is more than a remote likelihood that a misstatement of the County of Lancaster, Virginia's financial statements that is more than inconsequential will not be prevented or detected by the County of Lancaster, Virginia's internal control.

A material weakness is a significant deficiency, or combination of significant deficiencies, that results in more than a remote likelihood that a material misstatement of the financial statements will not be prevented or detected by the County of Lancaster, Virginia's internal control.

### Internal Control Over Financial Reporting (Continued)

Our consideration of internal control over financial reporting was for the limited purpose described in the first paragraph of this section and would not necessarily identify all deficiencies in internal control that might be significant deficiencies or material weaknesses. We did not identify any deficiencies in internal control over financial reporting that we consider to be material weaknesses, as defined above.

### **Compliance and Other Matters**

As part of obtaining reasonable assurance about whether the County of Lancaster, Virginia's financial statements are free of material misstatement, we performed tests of its compliance with certain provisions of laws, regulations, contracts, and grant agreements, noncompliance with which could have a direct and material effect on the determination of financial statement amounts. However, providing an opinion on compliance with those provisions was not an objective of our audit, and accordingly, we do not express such an opinion. The results of our tests disclosed no instances of noncompliance or other matters that are required to be reported under *Government Auditing Standards*.

This report is intended solely for the information and use of management, the Board of Supervisors, others within the entity, and federal awarding agencies and pass-through entities and is not intended to be and should not be used by anyone other than these specified parties.

Richmond, Virginia January 8, 2010

## ROBINSON, FARMER, COX ASSOCIATES

CERTIFIED PUBLIC ACCOUNTANTS

A PROFESSIONAL LIMITED LIABILITY COMPANY

Report on Compliance with Requirements Applicable to Each Major Program and on Internal Control over Compliance in Accordance with OMB Circular A-133

To The Honorable Members of the Board of Supervisors County of Lancaster Lancaster, Virginia

### Compliance

We have audited the compliance of the County of Lancaster, Virginia, with the types of compliance requirements described in the U.S. Office of Management and Budget (OMB) Circular A-133 Compliance Supplement that are applicable to each of its major federal programs for the year ended June 30, 2009. The County of Lancaster, Virginia's major federal programs are identified in the summary of auditor's results section of the accompanying schedule of findings and questioned costs. Compliance with the requirements of laws, regulations, contracts, and grants applicable to each of its major federal programs is the responsibility of the County of Lancaster, Virginia's management. Our responsibility is to express an opinion on the County of Lancaster, Virginia's compliance based on our audit.

We conducted our audit of compliance in accordance with auditing standards generally accepted in the United States of America; the standards applicable to financial audits contained in *Government Auditing Standards*, issued by the Comptroller General of the United States; and OMB Circular A-133, *Audits of States, Local Governments, and Non-Profit Organizations*. Those standards and OMB Circular A-133 require that we plan and perform the audit to obtain reasonable assurance about whether noncompliance with the types of compliance requirements referred to above that could have a direct and material effect on a major federal program occurred. An audit includes examining, on a test basis, evidence about the County of Lancaster, Virginia's compliance with those requirements and performing such other procedures, as we considered necessary in the circumstances. We believe that our audit provides a reasonable basis for our opinion. Our audit does not provide a legal determination of the County of Lancaster, Virginia's compliance with those requirements.

In our opinion, the County of Lancaster, Virginia complied, in all material respects, with the requirements referred to above that are applicable to each of its major federal programs for the year ended June 30, 2009.

### Internal Control Over Compliance

The management of the County of Lancaster, Virginia is responsible for establishing and maintaining effective internal control over compliance with the requirements of laws, regulations, contracts, and grants applicable to federal programs. In planning and performing our audit, we considered the County's internal control over compliance with the requirements that could have a direct and material effect on a major federal program in order to determine our auditing procedures for the purpose of expressing our opinion on compliance, but not for the purpose of expressing an opinion on the effectiveness of internal control over compliance. Accordingly, we do not express an opinion on the effectiveness of the County of Lancaster, Virginia's internal control over compliance.

### Internal Control Over Compliance (Continued)

A control deficiency in an entity's internal control over compliance exists when the design or operation of a control does not allow management or employees, in the normal course of performing their assigned functions, to prevent or detect noncompliance with a type of compliance requirement of a federal program on a timely basis. A significant deficiency is a control deficiency, or combination of control deficiencies, that adversely affects the County of Lancaster, Virginia's ability to administer a federal program such that there is more than a remote likelihood that noncompliance with a type of compliance requirement of a federal program that is more than inconsequential will not be prevented or detected by the County of Lancaster, Virginia's internal control.

A material weakness is a significant deficiency, or combination of significant deficiencies, that results in more than a remote likelihood that material noncompliance with a type of compliance requirement of a federal program will not be prevented or detected by the County of Lancaster, Virginia's internal control.

Our consideration of internal control over compliance was for the limited purpose described in the first paragraph of this section and would not necessarily identify all deficiencies in internal control that might be significant deficiencies or material weaknesses. We did not identify any deficiencies in internal control over compliance that we consider to be material weaknesses, as defined above.

This report is intended solely for the information and use of management, the Board of Supervisors, others within the entity, and federal awarding agencies and pass-through entities and is not intended to be and should not be used by anyone other than these specified parties.
